D3. Licence conditions that always apply

OEM / embedded: on-screen display only, inside a closed system, to individually signed-in users. No feed, file, download, export or API pass-through. Embedded use carries CSIMarket attribution. The system blocks AI crawlers, search engines and scrapers (Licensing).

AI: internal use only. Models, embeddings and indexes stay under the licence; neither the data nor a model trained on it may be redistributed. News article text and headlines are excluded from training (AI licensing).

Marketplace: the listing's terms and any private offer govern; default rights are Professional-equivalent unless the listing states otherwise.
